

A large, semi-circular decorative graphic in the top left corner, composed of numerous thin, concentric orange lines that form a cross-like pattern within a circle.

TWIN PUBLICATIONS

Below are some of the top global medical publications validating how Twin Health's AI-based technology is making a difference in the lives of diabetics.

1. Utilising internet of things and artificial intelligence to enable twin precision treatment for reversal of type 2 Diabetes [View](#)
2. Type 2 diabetes reversal with digital twin technology-enabled precision nutrition and staging of reversal: a retrospective cohort study [View](#)
3. Response to Twin Enabled Precision Treatment for Reversing Diabetes: An Initial Analysis at 4 Weeks of the Ongoing Randomised Controlled Trial [View](#)
4. Reducing HbA1c in Type 2 Diabetes Using Digital Twin Technology-Enabled Precision Nutrition: A Retrospective Analysis [View](#)
5. Combined improvement of insulin resistance and hypertension using whole body digital twin technology in diabetic hypertensives- a real world study [View](#)
6. Effect of Digital Twin Technology for Remission of Diabetes on the Glycemic and Extra-Glycemic Parameters: Interim Results of the Prospective Randomised Controlled Clinical Trial [View](#)

GENERAL PUBLICATIONS

Below are a few top Indian medical publications like **National Library of Medicine and PubMed** providing valuable information on diabetes.

1. Relationship between triglyceride glucose index, retinopathy and nephropathy in Type 2 diabetes [View](#)
2. Epidemiology of type 2 diabetes in India [View](#)
3. Diabetic Peripheral Neuropathy in Type 2 Diabetes Mellitus in Korea [View](#)
4. Cataract surgery in diabetes mellitus: A systematic review [View](#)
5. Association of glycaemia with macrovascular and microvascular complications of type 2 diabetes (UKPDS 35): prospective observational study [View](#)
